

# VRC NEWS

A Monthly Publication by YOUR Residents' Council

## February 2010

### Having Issues with your Internet?

Resnet is trying to isolate and correct internet connectivity issues that affect us as Verano Place residents. If you are having issues with your internet connectivity, please email Resnet informing them of the nature and hours of interruption. The more feedback we can provide the faster and more reliable the services will become.

### Pet Policy Update:

As many residents are aware, campus housing administration is endeavoring to modify the existing campus housing pet policy to disallow cats. Please send emails to Lisa Cornish (arcornis@uci.edu) to voice your opinions.

### Events Information:

Your Verano residents' council has funding and is striving to provide fun, entertaining, and/or educational events that Verano residents will enjoy and want to participate in. Please contact us to fund events or activities you would like to help organize or see take place.

### Housing Construction Update:

The Residents' Council has been actively involved in the Unit 4 housing construction planning process over the last several weeks. Our aims are to provide input and speak up throughout the process to make sure the student's needs are met and costs reduced. The recent building project focus groups and surveys have been a result of these efforts to better know and understand the students' needs and opinions. Thank you for your responses and participation, continued updates will follow in future newsletters.

### Upcoming VRC Meeting Times:

Thursday	February 25	5:00 p.m.	Verano Commons
Thursday	March 11	5:00 p.m.	Verano Commons
Thursday	March 18	4:00 p.m.	Verano Commons
